WHY JJS CURRENCY

Built different.
On purpose.

01

Zero fees. Not “low fees.”

Every naira is yours. No percentage clips, no spread markups, no hidden charges. What you calculate is what you receive — always.

02

Nigeria’s highest buy rates

We benchmark against Breet, Furex, and other major Nigerian platforms daily. Our rates are consistently at or above the market — and we can prove it.

03

04

Naira in minutes, not hours

Instant settlement is a promise, not a feature. Once confirmed on-chain, your naira arrives before you finish the conversation.
